THE NEW-YORK CRYSTAL PALACE.-We bearn by an invitation from the Directors that the first column of the Crystel Palace, on Reservoir-square, will be raised on the 26th inst., after which the erection will proceed steadily, as the iron-work has been going on in the foundries for some time. The masonry is nearly completed, and the great size of the building is very apparent to any one who will take a look at the outline of the work on the ground.

We are glad to hear that the vacancy in the Direction

has been filled by the name of Mr. WILLIAM W. STONE, of the firm of LAWRENCE & STONE. This selection is s fresh guaranty to the public of the desire of the Directors to give our own industry a full and fair chance. Mr. STONE is largely connected with some of the principal menufacturers of Massachusetts, and his energy and business experience will undoubtedly be of service in the Board.

By the way, now that the thing has assumed a definite form and shape, and that it is apparent it must have at all events very considerable success, why would it not be well for the Board to enlarge their force in some way ! There are but eleven members in the Board and perhaps this is enough for the central body. A larger number would perhaps render it difficult to get a quorum, divide responsibility too much and engender difficolties, but the same result could be arrived at in two or three ways. Local committees might be raised in Phil-adelphia, Boston, and other principal manufacturing centers, the members of which might perhaps be willing to decide on applications for space for their localities. This was done to a great extent in the London Fair, and i would relieve the central Board prodigiously. Again, honorary members might be elected and proper permdineus details of such a matter.

The Board has undoubtedly been extremely fortunate is regard to the building. It will make a very great show of itself and be an ornament to the City, but they most recollect that the business of filling the building with inateriels proper to be exhibited, is no small matzer, and that it requires a great deal of time, attention

md practical experience.

We make these suggestions from our strong desire for the success of the enterprise, and hope that they may be taken for what they are worth.

Pertrait of Washington .-- The engraving of STUART'S original portrait of Washington by T. R. Willer, may be obtained of William Terry, No. 113
Rassau-et., who is sole agent for the State of New-York. A remittance of Five Dollars will secure a copy by mail free of postage. We rejoice that this noble work of Art is now published in a form which makes it acconside to the great mass of American citizens. The original painting by the celebrated GILBERT STUART, now in the gallery of the Boston Athenaum, has been universally acknowledged by those competent to ex-press an opinion on the subject, to be the most life-like delineation of the features of Washington that was ever executed. In the copy now before us, the artist has succeeded to admiration in reproducing the peculiar traits of the picture and has presented his countrymen with a portrait, which can never be contemplated without a feeling of reverent and glowing enthusiasm. It represents WASHINGTON in the fulness of wise and venerable manhood, blending to a singular degree the firmness and dignified suavity which were ingrained in his character, and which give the emphatic type to his countenance. No one, who is not wholly dead to his nobler humanity can drink in the expression of serene majesty which emanates from these hallowed features and not receive a new inspiration to patriotic rotion, or suppress the regret that "Nature's sweet and cunning hand 'no longer delights to form such par-Agons as our WASHINGTON.

FIFTH WARD.-In the Board of Assistants, last evening, resolutions from the Board of Aldermen appointing two Inspectors of Election in place of two others removed from the Ward, were had upon the table, by request of Assistant Alderman Rodman, of the Ward, who said he did not think it proper that persons from other Wards should interfere with the Ward. is the rule of the Aldermen and Assistants when a Demecratic Inspector resigns, to appoint such person in his place as may be selected by the Democratic Ward Committee of the Ward, and the rule will be adhered to if the resolutions are laid upon the table, in the present case. The motion was declared by the Pres ident to be adopted.

MURDER TRIALS IN NEW-JERSKY .- The Circuit Court, and Court of Oyer and Terminer, and General Jul Delivery—Judge Ogden, Justices Griffith, Thomas, Chambers and Browning presiding—commenced at the Hudson County Court-House on Monday evening. This being an adjourned session, in order to try the criminal cases on the Calendar, the cases of persons under indictment for murder were first taken up.

THOMAS C. PIERCE, under an indictment for killing ALBERT BLUM, at Weehawken, with an ax, on the 14th of August last, was the first one sried. Gen. E. V. R. Whiter, District Attorney, associated with I. W. Scub-pre, Esq., appeared on behalf of the State, and ENOCH E. CAMP and ALFRED A. PHILLIPS, of New-York, for the prisoner. The first witness sworn was Many Ann Raysey, who lived where the murder took place; saw difficulty between accused and deceased; saw BLUM shake his fist under PIERCE's nose, and he raised a chair to strike him two or three times; saw Pience strike BLUM on the collar-bone with the ax; saw the blood, &c. LORENZO A. ELDER, physician, testified that he exemined the wound inflicted upon BLUM, and which caused his death. FREDERICK WILHELM and JAMES GARDNER were sworn and testified, when the Court charged the Jury, who retired, and after being absent fifteen minutes, returned into Court with a verdict of GUILTY of MUNDER in the first degree.

ROBERT CANTON WAS next put upon trial on a charge of murdering CHARLES WILLIAMS, in the affray be tween a party of Irish and colored waiters, on the morning of the 4th of July last, at the Elysian Fields, Hoboken. The circumstances of the case were published in The Tribune at the time of the occurrence. This case was not ended last evening at 7 o'clock, at which time the Court adjourned to this merning at 9] o'clock.

CATTLE SHOW OF THE AMERICAN INSTI-TUTE.-The Cattle Show of the American Institute opens this morning at Madison Cottage, corner of Twentythird st. and Fifth sv., opposite Madison square. It is under the control of the Board of Agriculture of the American Institute, who are a body of intelligent and responsible men. The premiums have been raised from 334 to 50 per cent, higher than they were the last year We hope that there will be a full display. This department of the American Institute has hitherto done much good, though the receipts have not equalied the ex penses. Our citizens should encourage by their attend ance, this important branch of the exhibition. We attended the State Fair at Uties this year, and we never saw a better or more numerous collection of horses than appeared on the Fair grounds. New-York is a point where horses may be exhibited with quite as much ad vantage as at any other location in this State. The cattle hast year were said to be superior to any other collection in this State, though not so numerous.

Association of EXEMPT FIREMEN.-There was a regular quarterly meeting of this Association, at Hall, in Mercer-st., last evening. Of the four hundred members of this Association only about fifty were present—political engagements and interests, probably, detaining many who otherwise would have been present. The President of the Association could not attend, and in a communication to the meeting, stated that the Historical Report of the Fire Depart ment would undoubtedly be rendered at the next meeting of the Association. This report has been in course of preparation for the last three years. The treasury was replenished by initiation fees and back dues. Twenty-one names were proposed for membership, and the Association adjourned for three mouths.

We call attention to the fact that Madame Zsulavski, sister of Gov. Kossurii, through the kind assistance of several gentleman, has just opened a first-class Boarding-House in a new and commodious edifice at the corner of Fourteenth-st, and Irving-place. It is hoped that she may find patronage amply sufficient to restore in some degree the losses she endured by the war, and to assist her in supporting her children, and an invalid sister now in Gormany.

CLAY MEDAL .- Mr. J. B. RICHARDS has pub-Hehed a Bronze Medal in memory of HENRY CDAY, engraved by C. C. WEIGHT, who designed and executed the great Gold Medal presented to HENRY CLAY last winter by a number of his friends in this City. The fidelity and excellence of the Bronze Medal are attested by THOMAS H. CLAY, surviving son of the great Statesman, and we presume this Medal will be treasured and valued by many who loved our great leader in life, and honor him no less now that he has passed away from

The Prize Turner's Festival came off at Turner's Home, the hostelrie of Mr. Hammer, Stapleton, Staten Island, Monday afternoon, in the grounds attached to which a variety of gymnastic or athletic exercises took place, in competing for the prizes. About 150 members were present in the uniform of the Club, a light dress, crimson sash and jäger horn, headed by Rubel's brass band, but double that number of Germans were present, and entered con amore into the convivialities and sports of the day, which passed off in the most orderly manner. Two magnificent crim-on flags were displayed in the procession, one presented by the Gerladies of New-York, the other by the German ladies of Newark.

A Model Iron Building .- A large warehouse, to be built entirely of iron, has been commenced in Beekman-st., adjoining the church, for TATHAM & Baos., lead-pipe manufacturers. It will be 50 by 138 feet. The only combustible material used in its construction will be the floor-timbers of the first and second stories, which will be of wood, in consequence of delay in procuring iron ones. Those used, however, will be filled in between with plaster of Paris. Though a fire should break out in any portion of it, the destruction of the whole building by that element would be impossi-

The Bookbinders in the employ of the American Tract Society have presented their late Superintendent, Mr. FIELDING S. GANT, with a handsome Gold Smitthey and Cane as a token of asteem for him as an employer while in charge of the Society's bindery. The Ladies of the sewing and folding rooms have also presented a handsome Bible, " with the hope that his future progress through life may be happy and prosperous, and that he may live long to enjoy the fruits of his early years." Mr. GANT has been in charge of the Society's business many years, and his kindness to all have gained for him the above testimonials.

Editor of The Tribune: It is widely known Editor of The Tribune: It is widely known that one of our citizens, F. M. Ray, Est, not long since awake ned the ingenuity of inventors, by offering premums amounting in the aggregate to \$3,000, for certain railroad inventions, and, from a visit to the Fair of the American functions, it is easy to percove that his call has been extensively responded to.

Deobtics Mr. Ray's motive in offering the premiums alloaded to was to add to the security and comfort of traveling upon railroad, and no one will doubt the necessity which exists of gaining that object.

The exhibition of railroad machinery now at the Fair disclose at the fact that some of that machinery possesses real and great merit, and if brought into general use will much diminish the present danger of railroad traveling; and as

an important step toward securing to the public the advantages which may be derived from its use. I regard it as a matter of great moment that the committee who are to act as judges on the Eay premium should be made familiar with all the advantages piece need by this various mechanisty, and I trust the committee will not deem me officious when I make the suggrestion that when they are prepared to examine the articles that they will occupy a room by themselves, having before them one machine at a time, and its inventor or his agent to explain and illustrate. In faist way they will be most apt to give general satisfaction and do institute to those inventions which possess the greatest merit. The public ask, and ask corneatly, for the adoption of such machinery as shall render railroad traveling most secure and comfortable, and the Fair contains same machinery better calculated to protect life, limb, and property, than any others of protect life, limb, and property, than any others of protect life, limb, and property, than any others of public both have a fair chance in this matter—one result will be that the public, at least, will be well paid.

Please give the above a notice in The Tribone and oblige.

FIRE.-At 5 o'clock on Tuesday morning a FIRE.—Al O COCK On Tuesday morning a fire broke out in the entry-way of the dwelling-house No. 18 Avenue D. The fire was discovered by two Policemen of the Eleventh Ward, who succeeded in extinguishing the flame she fore the premises were materially damaged. The firemen were promptly on the ground, but fortunately their services were not required. The fire was evidently the work of design, and had it not been for the timely discovery, the building would have doubtless fallen a prey to the devouing element.

Found Drowned.—The body of an unknown boy, shout 12 years of age, was found in the East River, at the feet of Burling-slip, yesterday morning. Coroner lyes held an inquest upon the body, and a verdict of "Death by drowning, under circumstances unknown to the Jury," was rendered. The deceased was about 3 feet 6 inches in hight, and was dressed in a mole-skin roundabout, panta, white shirt, coarse seeks and shees.

The body of an unknown man, about 25 years of age, 5 feet 9 inches in hight, was found in the East River, at the foot of Maiden-lane. The deceased was dressed in a figured calico shirt, silk cravat, black dress coat, gray panta, vest and boots. He had on also a black cloth dress coat. An inquest was held upon the body, and the Jury rendered a verdict of "Death by drowning."

ALLEGED INFANTICIDE—INQUISITION BY THE CORONER—Shortly after 9 o'clock, on Monday evening, Officer Donnelly, of the Second Ward, while on duty at Pier No. 20, East River, observed a man named Henry CLAFFER standing upon the pier, having a bundle in his arms. The suspicions of the officer were excited by the nervous appearance of the man, and he at once arrested him and took him to the Second Ward Station-House, where the bundle was found to consist of the body of a female child wrapped up in some clothing. The prisoner stated to Captain Leonardon in the control of the state of the body of a female child wrapped up in some clothing. The prisoner stated to Captain Leonardon in the first of the body of a female child wrapped up in some clothing. The prisoner stated to Captain Leonardon in the country about three years. He also stated that his wife had arrived in the country in July last, when she informed him that she had been seduced in England, during his absence from her. The deceased child was that of his wife, and he had not sent a sive, but on going home, on Saturday night, he found his wife sick and the child dead and wrapped up in some old clothing. He admitted that it was his purpose to have thrown the bedy overboard, alleging, as one reason the remaining this course, that he was too poor to have it interred. Yesterday afternoon the Coroner held an inquest upon the body, when the prisoner again made the same state ment, and added that he was exceedingly anxious that the birth of the child should not be made known to the other families living in the house with him, his principal object being to save himself and family from public degree and mortification. Dr. CHARLES A. Buon made a post-wortem examination of the body and found upon it no marks of violence. CHARGE OF FORGING BANK CHECKS.—A young man named EDWARD H. SHEPHERD, was yesterday arrested by officer GAFFNEY of the Second Ward, charged with having torged a check for \$25 on the Broadway Bank. Mr. Jas. S. CHAPPELL of No. 120 Williamest, is the complainant, and in his affidavit states, that the accused on Monday last handed him a check for \$25 on the Broadway Bank, purporting to have been signed by EDWARD GROALUS of No. 23 Faitonest, corner of Waterst., in payment of a debt which was owing him by the secused. On being asked by Mr. CHAPPELL is the same time exhibited another purporting to have been signed by the same individual, for \$119. Mr. CHAPPELL yesterday presented the \$25 check at the bank, and was there informed that the purported single of it had no account with the bank. The check was then shown to Mr. CROLIUS, who pronounced it a forgery. The prisoner on his arrest stated to the officer that he had recently been in the employ of Mr. CROLIUS, and had received both checks from him. He was then taken to the store of Mr. C. who, upon seeing him said that he had never been in his employ, nor had he ever seen him before. He was then taken before Justice Osnorsk and committed to prison for trial, in default of \$1,000 bail. The prisoner on his examination, stated that he was born in Boston, is 29 years of age, and a tin plater and worker in sheet iron, by trade. He says: "I have been under the influence of liquor, which has caused me to commit this act. These two checks came from the Carlton House; I got them while intoxicated." Not long since, this prisoner was tried in the Court of Sessions for a Larceny, and acquitted. The officer states that he admitted to him that he forged the signatures to the checks.

A House Robber Caught.—On Monday night Capt. Brennan, of the Sixth Ward Police, received information that a robber was at work in the house of Mrs. Mary A. Wilson, No. 371 Broadway. He immediately, with Officer Patterson of the Lower Police Court, went to the house, when he found the fellow secreted in the coal cellar, having in his possession clothing to the value of 8165. When arrested, he gave his name as Thomas Prance, and became exceedingly insolent to the ladies of the house, who had approached the officers. The latter classised him for his molence, whereupon the fellow made a move as if to draw a kuife from his pocket, but the officers were too quick for him and soon had him handenfied. On searching him, a large dirk knife was found on his person. After being taken to the Station-House, he stated that he was an English prize fighter, and would be glad to meet Capt. Barsnan in the Penitentiary, where he had been confined for a misdemeaner. He was committed by Justice Osborne, for trial. A HOUSE ROBBER CAUGHT .- On Monday night

COMMON COUNCIL PROCEEDINGS .- There was

Common Council. Prockedings.—There was a Meeting of the Board of Aldermen on Monday evening. At about an bour and a half delay after the time appointed, a quorum was got together, when a resolution was introduced, deprecatory of the conduct of members who absented themselves from these meetings, to the great detriment of public business, and censuring the absentees accordingly. The resolution was passed unanimously.

Several Inspectors of Elections were appointed in place of parties resigning and otherwise disqualined; also changing the polling places in some two or three districts.

A communication from his honor the Mayor was taken on the table, relative to vetoing the establishment of a new loss and Bucket Company in the City. The veto was opposed at some length, but was eventually sustained.

The special order of the day was taken up, relative to a resolution, calling upon the Collector of Assessments and Taxes to keep a set of books whereby might be seen the state of the City funds at a glance, and also to show the liabilities of property within the precincts of the City. It was noved and carried, that hereafter no member be allowed to leave the Board while in session; and that the names of all absentees be published in the Corporation papers.

The Board then adjourned to Monday evening next at 64 The Board then adjourned to Monday evening next at 64

PHILADELPHIA SALES OF STOCKS -- Tuesday,

Tuesday, Oct. 19-P. M. In Stocks there is an improved feeling con-

sequent upon the safe arrival of the Crescent City, and bales. the quotations improved. The sales were to fair ex-North American Trust was the most buoyant steck, and realized an advance of 3 P cent., going to 25 under sales of over 2,000 shares. The market closed at 24 2 241. Nicaragua also improved, and under free sales closed at 274, an advance of 14 P cent. Erie improved i P cent. closing at 851. Stonington and Nor-wich are better and in demand. The present unremunegative through fares, it is believed, will not continue but a short time. Long Lland fell off after the Second Board under orders to sell from Philadelphia to 261 @261. Reeding was firm at 974. Zine was firm and in fair demand. There is not much doing in State and Government Stocks, but the market is firm.

At the close of the Second Board there was considerable firmness.

Exchange is in better supply and dull, at 104 @10j, the bulk of the bu-iness being at 10j @10j. First class names were sold at 101 P cent. The transactions in Cotton are now very large at New Orleans, and from this source we shall have considerable relief for the Exchange market. The business for the steamer to-morrow, has not been very large.

There is considerable doing in Freights, and the tendency of rates is upward. To Liverpool wa bear of 25,000 or 3,000 bushels Wheat, at |5@|5}, the latter in ship's bags; Flour is /15; 500 bbis. Resin, /15; 1,000 bales Cotton, |5-32@/3-16; ship-masters are saking /4. To London, 150 tuns Oil Cake, 27/6; 5,000 bush. Wheat, 7: 1,000 bbls. Flour, 2/3. To Havre, Cotton, ic. To Antwerp some Wheat was taken a few days since at /7. To California, there is a fair business doing. The receipts of the Sub-Treasury are \$135,-334. Payments, \$68,997. Balance, \$6,378,784.

The current rate of Money on call is now 6 P cent., with many loans at 5@6; P cent. The leadng house who lend their balances from day to day found it difficult to find borrowers. Peper of first class

le 027 P cent. The Dry Goods trade in first hands has be-

come less active, and is fast diminishing. Public sales are becoming less numerous, and will shortly cease; but from second hands business is very active. Jobbers are full of orders, in great part for Spring Goods, which are now freely arriving and delivering. Stocks are much reduced, and prices are generally well sustained. Brown Sheetings and Shirtings are rather more active for export, and prices are fully sustained. Bleached Goods are less inquired for, but prices are without change. Drills are very active, but mostly for Browns, which have become scarce. Prices range from 71271. Sales are large for future delivery, at 71271. Large shipping orders have arrived from the East Indies. Blues are wanted at 9, and bleached are teady at 8. The stock of Osnaburghs is very light, and prices are firm, with a good demand. Denims are moderately active, and prices are firm at 81 for all marks. Stripes are in light supply, which fully custeins prices, though the demand is falling off. Ticks are steady, with a limited inquiry. Canton Flannels are buoyant, with a light stock and active demand. Printing Cloths are quiet, but are advancing in price, the stock being low. There is, however, no quotable change in prices. Ginghams still sell well at 10@10f, with a diminished supply. De Laines are moderately active at full prices, but the season is nearly at end from first hands. Cloths are active at full prices, without accumulation of stock. Cassimeres have been sold down low in stock, and the diminished demand is more than met by a diminished supply; prices consequently are firm. The best quali-tics are still active. Satinets still sell well at regular prices. Tweeds and Janes are quiet but without change in prices. Linseys are in reduced stock, and

are firmer at 19c. Plannels are getting scarce and are firm. Blankets are active and steady. French Goods are scarce in first hands, and the arrivals are constantly wanted to complete assortments. The season is likely to close with nearly a total obstinence of stocks. The sale of French fabrics, both staple and fancy, has been immence and unprecedented, and prices are sustained to the last. Press Goods are setive for the near by trade. British Goods are less in demand, especially for the Staple goods. The market is, however, far from dail, and the sales leave a fair profit. The stocks are larger in proportion to those of French Goods, but are net extreme and are firmly held.

The receipts of the Rochester and Syracuse Road for the first week of October were larger than for any previous week since the road was in existence, excopting the week when the State Fair was at Roches-The Erie receipts for October look well, and will

probably exceed those for September. The Southern Michigan and Northern Indiana will probably read \$125,000. The Hudson River about the same as in The receipts on the Little Miani, and Columbus and Xenia Railroads, for the week ending 7th

inst., were \$13,875 47, which is a large gain on the period of last year. The Grocers' and the Market Banks have adopted the Metropolitan system, and will receive on

deposit uncurrent money at i P cent discount for State and 1-15 P cent on all Eastern received at the The Central Railroad Company of New-Jer-

sey has declared a final interest dividend of 3} P cent., payable in stock, on demand. The steamer to-morrow will probably have

over a haif a million in coin. Some amounts, however, have been countermanded, and more may be. The Girard Bank of Philadelphia will apply

to the next ression of the Legislature for a renewal of its charter. The annual meeting of the Baltimore and Ohio Railroad Company was held at Baltimore yester-day. The report of the Directors shows that the receipts

The earnings of the Washington Branch for the year were \$348,622 76, and the expenses \$132,385 31, leaving a net revenue of \$216,237 45, out of which a dividend of

4 P cent, has been declared for the six months ending the 30th of September, payable on the 15th inst., making with the April dividend 8 P cent, for the year. There yet remains to be constructed of the road about 40 miles, between the Pettibone tunnel and the City of

Wheeling, and this, it is expected, will be completed by

the 1st of Jan. next. Arrangements have been made for the establishment of a daily line of boats of the first class to ply in connection with the road on the Ohio River. It is stated in the report that the Directors have entered into a contract with the Cumberland Coal and Iron Company, by which that Company stipulates to furnish capital for an increase of their present coal power to 100 cars P day, say 300,000 tuns P annum, and to establish a line of propellers and barges between Baltimore and New York, at a cost not to fall below

Markets-CAREFULLY REPORTED FOR THE TRIBUNE

ASHES—The market is very quiet but steady, wises of 39 bbla at \$4 684 for Pots, and \$5 594 for Pearls.

COTTON—The market for this staple is easier, 1,500 bales sold to-day at prices rather more in favor of buyers.

FLOUE AND MEAL—There is less buoyancy in the
